COUSE CODE: CSA1302

EXP - 2

AIM

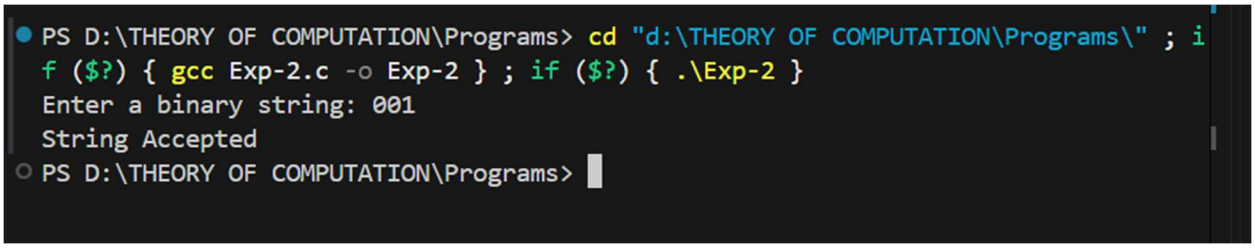

To write a C program to simulate a Non-Deterministic Finite Automaton (NFA) that accepts strings starting with 0 and ending with 1.

ALGORITHM

1. Start the program.
2. Read a binary string from the user.
3. Check whether the first character is 0.
4. Check whether the last character is 1.
5. If both conditions are satisfied, print **"String Accepted"**.
6. Otherwise, print **"String Rejected"**.
7. Stop the program.

SAMPLE INPUT & OUTPUT:

1.

RESULT

The C program was executed successfully. It accepts binary strings that start with 0 and end with 1, and rejects all other strings.
